

JENNIFER BENTULAN

iOS Developer | Swift & SwiftUI | AI-Powered Apps

Loma Linda, CA | (951) 259-1328 | bentulj4@gmail.com | github.com/supahsushi | supahsushi.github.io/portfolio

PROFESSIONAL SUMMARY

iOS developer with hands-on experience building and publishing real-world apps using Swift and SwiftUI. Experienced with HealthKit, StoreKit 2, SwiftData, ActivityKit, AI/API integration, and App Store deployment. Combines iOS development with a background in graphic design and UI/UX to build approachable, user-focused experiences. Seeking an iOS developer opportunity where I can contribute product experience, strengthen my engineering skills, and continue growing as part of a development team.

CORE SKILLS

Swift, SwiftUI, UIKit, SwiftData, HealthKit, StoreKit 2, ActivityKit, WidgetKit, Combine, REST APIs, AI/LLM Integration, Supabase, iCloud, Git/GitHub, Xcode, App Store Connect, UI/UX Design

PROFESSIONAL EXPERIENCE

GlucoMood - iOS Developer

Independent iOS App | Mar 2026 - Present

- Built a diabetes and wellness companion in SwiftUI with glucose, medication, activity, workout, and health-data logging.
- Integrated Apple Health with HealthKit and built movement tracking, persistent history, and playful “Movement in Food Form” activity feedback.
- Developed Mimi AI with a server-side AI workflow and contextual wellness conversations; implemented usage limits and movement-based message rewards.
- Implemented StoreKit 2 auto-renewable subscriptions, entitlement restoration, and free/Premium feature gating. GlucoMood 1.0 is currently submitted for App Store review.

Neuro Venture: ADHD Focus - iOS Developer

Published App Store App (ID: 6759033245) | Feb 2026 - Present

- Built and published a gamified ADHD-focused productivity app using Swift and SwiftUI.
- Developed quests, XP/Gold progression, focus timers, reminders, widgets, Dynamic Island/Live Activities, and Apple Health-powered activity features.
- Implemented local persistence, iCloud synchronization, notifications, and StoreKit-based premium features.

Love Always AI - iOS Developer

Published App Store App (ID: 6760535944) | Feb 2026 - Present

- Built and published an AI companion app using SwiftUI with backend API integration for Qwen 2.5-powered conversations.
- Developed adaptive conversational context, smart reminders, iCloud sync, weather integration, and contextual web-search capabilities.
- Implemented StoreKit monetization and feature gating; designed the product experience, brand identity, and App Store presence.

EDUCATION & CERTIFICATIONS

The Art Institute of California - Inland Empire - Graphic Design

Google Certifications: Introduction to AI (Aug 2025) | Foundations of UX Design (Sept 2025)

Micro1: AI Reviewer (July 2026)
