JENNIFER BENTULAN

iOS Developer | Swift & SwiftUI | AI Powered Apps

Loma Linda, CA | (951) 259-1328 | bentulj4@gmail.com | github.com/supahsushi | supahsushi.github.io/portfolio

PROFESSIONAL SUMMARY

iOS developer with hands on experience building, shipping, and submitting real world apps with Swift and SwiftUI. Experienced with HealthKit, StoreKit 2, SwiftData, ActivityKit, AI and API integration, local notifications, and App Store deployment. Brings a graphic design and UI/UX background to development, with a focus on creating approachable, polished experiences that feel good to use. Looking for an iOS developer role where I can contribute to real products while continuing to grow as an engineer.

CORE SKILLS

Swift, SwiftUI, UIKit, SwiftData, HealthKit, StoreKit 2, ActivityKit, WidgetKit, Combine, REST APIs, AI/LLM Integration, Supabase, iCloud, Local Notifications, Git/GitHub, Xcode, App Store Connect, UI/UX Design

PROFESSIONAL EXPERIENCE

Itadaki Task | iOS Developer

Independent iOS App | Sep 2026 to Present

- Designed and built a playful task and habit app in SwiftUI where completing everyday tasks becomes part of a sushi themed progression experience.
- Built task scheduling, recurring reminders, task categories, streaks, achievements, customer collections, and lifetime progress tracking.
- Added a one time Premium unlock with Chef Alarm reminder sounds and premium reminder features using StoreKit.
- Created the app's original visual experience, onboarding, App Store presentation, and product design. Submitted Itadaki Task to the App Store in September 2026.

GlucoMood | iOS Developer

Independent iOS App | Mar 2026 to Present

- Built a diabetes and wellness companion in SwiftUI with glucose, medication, activity, workout, and health data logging.
- Integrated Apple Health with HealthKit and built movement tracking, persistent history, and playful Movement in Food Form activity feedback.
- Developed Mimi AI with a server side AI workflow and contextual wellness conversations, including usage limits and movement based message rewards.
- Implemented StoreKit 2 auto renewable subscriptions, entitlement restoration, and free and Premium feature access. GlucoMood 1.0 is currently submitted for App Store review.

Neuro Venture: ADHD Focus | iOS Developer

Published App Store App (ID: 6759033245) | Feb 2026 to Present

- Built and published a gamified ADHD focused productivity app using Swift and SwiftUI.
- Developed quests, XP and Gold progression, focus timers, reminders, widgets, Dynamic Island and Live Activities, and Apple Health activity features.
- Implemented local persistence, iCloud synchronization, notifications, and StoreKit premium features.

Love Always AI | iOS Developer

Published App Store App (ID: 6760535944) | Feb 2026 to Present

- Built and published an AI companion app in SwiftUI with backend API integration for Qwen 2.5 powered conversations.
- Developed adaptive conversational context, smart reminders, iCloud sync, weather integration, and contextual web search features.
- Implemented StoreKit monetization and feature access while designing the product experience, brand identity, and App Store presence.

ADDITIONAL WORK EXPERIENCE

Warehouse Associate - Shipping/Receiving | Iron Mountain

Perris, CA | Sep 2026 to Present

- Receive inbound orders by scanning and counting boxes for accuracy.
- Move received boxes to their storage locations (relocation and putaway).

Fulfillment Associate | Amazon

Oct 2023 to May 2025

- Scanned and processed hundreds of barcodes daily to ensure precise inventory tracking.
- Picked outbound orders and counted items in bins to verify order accuracy before shipment.
- Loaded and unloaded products on the dock and moved items onto conveyor belts.

Delivery Sorting Associate | Amazon

Jan 2018 to Sep 2019

- Sorted delivery packages from conveyor belts and scanned boxes and totes to designated shelves for accurate placement.
- Prepared packages for delivery drivers and guided flex drivers to their assigned routes for timely deliveries.
